Healthier Dining on Campus

A guide to healthy eating at USC
Brought to you by USC Hospitality in partnership with USC WorkWell Center
Introduction

Access and availability of healthy foods and beverages plays an important role in an individual’s overall health and well-being. The link between diet and health has been well documented in scientific literature for many decades, and there is continuously growing evidence showing that food and beverage environments conducive to healthy dietary patterns can help individuals achieve and maintain good health and reduce the risk of chronic diseases throughout different life stages.

The USC WorkWell Center and USC Hospitality is pleased to share the Healthier Dining on Campus guide to support the USC community to choose healthier food and beverages on campus and improve overall health and quality of life. Recommendations in this guide are based on 2020-2025 USDA Dietary Guidelines for Americans, Menus of Change, and reviewed by Lindsey Pine, MS, RDN, CLT, Registered Dietitian.

PLEASE NOTE: Some meals ordered on the Campus Dining app and kiosks may not allow for customization. If this is the case, please talk to a staff member at the venue about customization immediately after placing your order on the device.

We encourage you to use this guide as reference when dining at the many eateries on campus. If you have any questions, suggestions, or feedback, please contact:

Julie Chobdee, MPH, Associate Director, Health & Well-being Program, WorkWell Center, jchobdee@usc.edu
